Cengage Learning  12/31/20	Investigating Your Career	Jordan /Crews	2013	9-12	9781111575502	Recommended as a resource/supplemental for teacher only for Life and Careers Exploration
	<p><b>Notes:</b> Text was sent for 6-7 grades Family and Consumer Science – Life and Career Explorations; this text would be useful for 9-12 grades Family and Consumer Science – Career and Personal Development. The reading level and topics are of higher complexity than a 6-7 grade level. Text should also be considered for Individualized Occupational Training (IOT) 9-12 grades. Publisher lists grade level for 9-12.</p> <p>Strengths: Consistent formatting; Up-to-date technology techniques including blogging activities for students; Real People/Real Career information was very good; Real Life Focus information was helpful; Online application includes résumé builder, interactive behavioral interview experience, and videos with interview tips and techniques; Additional web connections were referenced; Questions for students to consider aid in higher level thinking; Learning from others assignments encouraged higher level thinking; Activities throughout the book were appropriate and included problem solving; Test generator included – Exam View; Student access to tests online or via print from Exam View; The Resource CD provided many activities in Career Interests and Exploration.</p> <p>Weaknesses: Little information was provided for Health and Safety: a. Personal health and wellness practices. b. Personal health, safety, and wellness practices in the workplace. Relation to laws, but no relation to employee responsibilities. The purple and green backdrop dots behind the text starting on page 4 and continuing throughout the book could make the text difficult to read/focus on. The Resource CD focused most activities on Career Interests and Exploration, and very few others to cover the remaining standards. Could be used for Career and Personal Development or IOT.</p>					Highly Recommended as a comprehensive program for Individualized Occupational Training or Career Exploration and Employment Preparation & Work-Based Learning course
	<p><b>Key Features:</b></p> <ul style="list-style-type: none"> <li>• INVESTIGATING YOUR CAREER, 3E offers students an opportunity to direct their attention toward an area of interest that might develop into a career path while also identifying high school and college course offerings related to their career choices.</li> <li>• SOCIAL NETWORKING – As it becomes the way the 21st Century communicates today, a new lesson on social networking has been added. The topic is also infused throughout the chapters.</li> </ul>					

	<ul style="list-style-type: none"> <li>• PERSONAL FINANCE - A new chapter covers budgeting, checking and savings accounts, saving and paying for education, and credit and debit cards.</li> <li>• BLOG – An activity at the end of each chapter leads to a blog project at the end of each part. The part projects then lead to a capstone blog activity at the end of the book giving students the opportunity to put learning into practice.</li> <li>• PLANNING A CAREER IN . . . features that introduce each chapter correlate to the 16 CAREER CLUSTERS and present the employment outlook, possible job titles, and needed skills and education associated with a career in that cluster.</li> <li>• ALTERNATE WAYS OF WORKING - New lessons has been added on entrepreneurship, global career opportunities, flex schedules and more providing opportunities for students to learn in multiple ways.</li> <li>• MAKE ACADEMIC CONNECTIONS provides the integrated curriculum activities that show students how advertising concepts relate to other courses of study.</li> </ul>

Goodheart- Willcox  12/31/20	School to Career	Littrell, Lorenz, Smith	2014	9-12		Highly Recommended as a comprehensive program for Career Exploration and Employment Preparation and Work-Based Learning
	<p><b>Notes:</b> Career Clusters Handbook included in back of text. The text is available online with search functionality for the 27 chapters. Instructor's Edition includes materials for presentations. QR Codes take students directly to Goodheart-Willcox textbook website. Strengths: Fundamental understanding of Economic System. Writing is strong, matter-of-fact. Clean presentation. Chapter 18 included a section on Labor Unions that was informative and unbiased. Accompanying student workbook is helpful with practice of presented ideas. Covers 100% of IOT Standards. Weaknesses: Sequence of information does not flow well, ie: job seeking is presented before career investigation. Little résumé information is available in text. Text is very long in comparison to the other texts reviewed. Index referenced pages were noted to be incorrect, ie: "Case" for the Case Studies shows pages 53 and 94, however there are no Case Studies on these pages</p> <p><b>Key Features:</b> With <b>School to Career</b>, students will learn personal skills, decision-making skills, and employability skills that will help create a foundation for independence. Skills for success, such as teamwork and problem solving, communicating on the job, and leadership are also covered. Students will have an opportunity to research and learn about careers using Career Clusters to define their future goals. A Career Clusters Handbook, which describes each of the 16 clusters and lists jobs under the pathways, appears at the back of the text. As part of the learning process, students will assess their skills and abilities to help make decisions about a career that is a good fit. Students will learn about college and other postsecondary programs that might help them reach their goals.</p>

McGraw-Hill School Education LLC  12/31/20	Succeeding in the World of Work	Kimbrell	2013	9-12		Recommended as a comprehensive program	
	<b>Notes:</b> Meets many, but not all, of the IOT standards. Pages of text have too much visual clutter with cartoon and photo integration, tabs, colors, and borders. Online functionality supports text and provides project-based learning for students. Text available online completely with search function. Strengths: Online access supports text with projects, activities, videos, etc. Many related and beneficial projects are introduced in the text Job interview information is detailed. Guide on page xvi explains procedures with project format. Reading Skills Handbook on page xxiv-xxvii is excellent. Hybrid text and online features are beneficial for modern student learning. Weaknesses: Military careers are not explored within the text. Career exploration is limited within the text, project online must be completed. Establishing short and long range goals is not present within the text. Networking, negotiating, and mentoring in careers are very limited within the text. Benefits, contact personnel, and hiring practices are very limited within the text. Multiple topics touched very briefly, not a lot of in-depth, critical thinking pieces outside of the encouraged projects. Some of the picture integration with the text is overwhelming, too much going on; cartoons present a more juvenile than professional approach (ie. depiction of dress of students on cover, etc.) No résumé example in text; could not locate on online access. No teacher search feature online outside of online textbook.						
	<b>Key Features:</b> Succeeding in the World of Work is an innovative, project-based curriculum that combines print and online components in a unique blended platform that uses online projects, interactive activities, and other dynamic assets like videos to bring concepts to life. Students use McGraw-Hill Connect™ to interact with the content, apply what they have learned, and connect with each other and their instructors. The Teacher Edition of Succeeding in the World of Work provides a wealth of teaching suggestions and ideas designed to motivate and involve students and assist teachers in reaching students of all levels of ability and backgrounds. There are suggestions for discussion starters, universal access activities, skills practice with leveled instruction, writing practice, and critical thinking.

McGraw-Hill School Education LLC  12/31/20	Career Companion	Contemporary	2012	12		Recommended as a resource/supplemental program
<b>Notes: Overall Notes:</b> As per the publisher, the <i>Career Companions</i> are “designed to accompany the <i>Workforce Connects Workplace Skills</i> series.” However, no additional books were sent. Upon internet investigation, it appears there is an online program, yet, no log-in information was provided. Additionally, the publisher states, “ <i>Career Companions</i> can fit into any curriculum schedule as a <u>supplemental resource</u> for students. These books are wonderful resources to use to learn about many different careers. However, students would need worksheets, other specific assignments, and/or an accompanying textbook in order to meet all the standards. The information may be contained within them, but some of the specific standards are obviously not met. These are great companion books, but may need to be updated frequently for changes in career outlooks. <b>Strengths:</b> Consistent formatting. First half of book is exploring the careers available within the career field. Second half of book is building and applying skills for career field. <b>Weaknesses:</b> Not a complete resource for classroom purposes; needs supplemental information and/or text. Occupation growth outlook will be outdated in 2018. Only a print format, no online version available per publisher.						

	<p><b>Key Features:</b> Career Companions help students explore and prepare for careers within the 16 national career clusters. McGraw-Hill Workforce's <b>Career Companions</b> series provides up-to-date career information and contextualized skill practice to help learners succeed in the 21st century workforce. Each book in the series provides information and resources to help learners explore and prepare for careers within one of the 16 career clusters. The first part of each book is devoted to introducing the cluster. The second part offers learners and jobseekers the opportunity to apply essential workplace skills in cluster-specific situations. In today's competitive and ever-changing workplace, the industry knowledge and skill proficiency offered by the <b>Career Companion</b> series gives jobseekers and learners an advantage to help them reach their career goals.</p>

McGraw-Hill School Education LLC  12/31/20	Exploring Careers	Kelly-Plate	2013	6-7, 9-12		Recommended as a comprehensive program 9-12 Individualized Occupational Training and for 6-7 Exploratory and Family Consumer Science
	<b>Notes:</b> Publisher recommended for 6-8 grade level; consensus agreed appropriate age level. Product was submitted for 9-12 grade Individualized Occupational Training; not recommended for this program nor grade level. Product is recommended for 6-8 grade Family Consumer Sciences - Life and Career Exploration. Strengths: Fun games are interactive on the web-based curriculum. Students can create personalized avatars and explore different areas across the United States while exploring career cluster areas. Classes can be added by instructor and assignments/information can be added to them. Students gain points for activities and assessments that can be utilized in Avatar Mart. Videos provide real-world look at occupations. Weaknesses: No exit button on program once running. Need Adobe Flash Player to utilize program; when attempted on iPad, it is an unsupported program. Points were accrued during games, however participants were unable to keep points to utilize in the avatar store (possibly due to type of access?)No search feature when online in student e-text; index is high level topics, no way to quickly access videos and other content. Information provided must be viewed sequentially (even if you have completed a section prior, you cannot skip to another section if you return).					

	<p><b>Key Features:</b> <i>Exploring Careers</i>, the targeted option for 6-8 students, is an all new, completely online program that lets students explore their career options through a fun and engaging game-like format. The travel theme takes students to different cities to explore each of the 16 career clusters. Dynamic and interactive, <i>Exploring Careers</i> helps students to develop self-awareness, workplace skills, and knowledge about career options through project-based learning. Each of the career explorations includes portfolio building projects, culminating with the creation of an individualized learning plan that students can use to choose their career path.</p> <p>This new edition gives middle school students the opportunity to explore various career areas and introduces them to the realities involved in today's rapidly changing workplace. The text emphasizes the foundation skills and workplace competencies necessary for workplace success. The fourth edition has been <b>updated</b> to include all 16 of the US Department of Education career clusters.</p>
